

■ Abstract

This table provides information on the main relevant indicators. The data have mainly been supplied by the World Bank, and cover, where available:

- Current Gross National Income (GNI) in US \$ millions;
- GNI per capita (US \$);
- Population;
- Energy use as kilogram of oil per capita;
- Average Life Expectancy of Adults; and
- Adult Literacy Rate as a percentage of the country population.

Data for Sudan include South Sudan, with the exception of total population, which is reported separately.
