

## LFS - Incidence of Involuntary Part Time Work

### ■ Data Characteristics

#### ■ Unit of measure used

Percentage

### ■ Population & Scope

#### ■ Statistical population

This table contains the shares of involuntary part-time work among part-time workers and ratio of involuntary part-time work and labour force and the gender composition of involuntary part-time workers. Data are broken down by professional status - employees, total employment - sex and standardised age groups (15-24, 25-54, 55+, total).

#### ■ Geographic coverage

In order to facilitate analysis and comparisons over time, historical data for OECD members have been provided over as long a period as possible, often even before a country became a member of the Organisation. Information on the membership dates of all OECD countries can be found at OECD Ratification Dates.

- **OECD Ratification Dates**

### ■ Concepts & Classifications

#### ■ Key statistical concept

Part-time work and involuntary part-time work are according to national definitions.

For detailed information on labour force surveys for all countries please see the attached file : [www.oecd.org/els/employmentpoliciesanddata/LFSNOTES\\_SOURCES.pdf](http://www.oecd.org/els/employmentpoliciesanddata/LFSNOTES_SOURCES.pdf)
