

LFS - Employment by Permanency

■ Data Characteristics

■ Unit of measure used

Employed

■ Power code

Thousands

■ Other data characteristics

Data are reported for employees only in most countries

■ Population & Scope

■ Statistical population

This table contains data on permanent and temporary workers based on the type of work contract of their main job. Data are further broken down by professional status - employees, total employment - by sex and by standardised age groups (15-19, 15-24, 20-24, 25-54, 55-64, 65+, total).

■ Geographic coverage

In order to facilitate analysis and comparisons over time, historical data for OECD members have been provided over as long a period as possible, often even before a country became a member of the Organisation. Information on the membership dates of all OECD countries can be found at OECD Ratification Dates.

- **OECD Ratification Dates**

■ Concepts & Classifications

■ Key statistical concept

For detailed information on labour force surveys for all countries please see the attached file : www.oecd.org/els/employmentpoliciesanddata/LFSNOTES_SOURCES.pdf
