

## LFS - Employment by Weekly Hours Worked

### ■ Data Characteristics

#### ■ Unit of measure used

Persons

#### ■ Power code

Thousands

### ■ Population & Scope

#### ■ Statistical population

This table contains data on employment by hour bands for usual weekly hours worked in the main job. Standard hour bands are reported for most countries. Actual hours of work instead of usual hours of work are only available in some countries (Japan and Korea). Data are broken down by professional status - employees, total employment - by sex and standardised age groups (15-24, 25-54, 55+, total).

#### ■ Geographic coverage

In order to facilitate analysis and comparisons over time, historical data for OECD members have been provided over as long a period as possible, often even before a country became a member of the Organisation. Information on the membership dates of all OECD countries can be found at OECD Ratification Dates.

- **OECD Ratification Dates**

### ■ Concepts & Classifications

#### ■ Key statistical concept

For detailed information on labour force surveys for all countries please see the attached file : [www.oecd.org/els/employmentpoliciesanddata/LFSNOTES\\_SOURCES.pdf](http://www.oecd.org/els/employmentpoliciesanddata/LFSNOTES_SOURCES.pdf)
