

Business enterprise R-D expenditure by size class and by source of funds

■ Data source(s) used

Joint OECD-Eurostat international data collection on resources devoted to RD

■ Other data characteristics

Sources and Methods Databases

R&D data reported in this dataset have been collected according to 2002 guidelines of the Frascati Manual, which have been now superseded by the Manual's 2015 edition. Revised definitions are not expected to revise significantly the major indicators.

■ Reference period

2000 onward.

■ Unit of measure used

Data are provided in million national currency (for the euro zone, pre-EMU euro or EUR), million current PPP USD and million constant USD (2010 prices and PPPs).

■ Variables collected

This table presents research and development (R&D) expenditure statistics performed in the business enterprise sector. Data include total business enterprise intramural expenditure on R&D by size class and source of funds.

■ Population & Scope

■ Geographic coverage
